

INSTRUCTIONS FOR USING THE REEDS RING FINGER MEASURER

1. Print out this Reeds Ring Finger Measurer. * See printing instructions below.
2. Carefully cut along the dotted lines.
3. Wrap the Reeds Ring Finger Measurer around the base of the finger on which the ring will be worn. When wrapped correctly, the Reeds Ring Finger Measurer should slide easily over the finger.
4. The number the arrow points to is your proper ring size.
NOTE: Extra wide band styles tend to run slightly small. For best fit, you may wish to order a ring a ½ size larger than the normal size worn.

*Printing Instructions

NOTE: To view this type of document, you will need to have the free industry standard Adobe Acrobat reader installed on your computer to read this PDF file (If you click on the icon and the document does not open properly due to unrecognized file type, you will probably need to install this reader. To get a free, safe download from Adobe, go to <http://www.adobe.com/products/acrobat/readstep2.html> and follow the instructions for your computer, platform and language.)

To correctly print out this sizing tool to the right size, make sure your print options are set to print the page at 100% normal size, with no Shrinking or Expanding of page to fit the page. Since screen resolution and printer settings vary for every user, these measurements are only approximate. For the most accurate sizing, please visit your nearest Reeds store where an expert associate will take the correct measurement.
